EDUCATION

MITADT University – School of Engineering

Pune, India

B. Tech in Computer Science Engineering – AI & Analytics

2021 - 2025

- CGPA: 7.32/10
- Relevant Courses: Machine Learning, Data Mining, Deep Learning, Cloud Computing, Data Analytics, Neural Networks

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript, SQL

AI/ML & Generative AI: Machine Learning, NLP, LLMs, Generative AI, Prompt Engineering, Multi-Agent Systems

AI/ML Tools: TensorFlow, PyTorch, Scikit-learn, Pandas, Lyzr Agent Studio

Data & Visualization: Tableau, Power BI, Excel, Matplotlib, Seaborn

Web & Cloud: React.js, Material-UI, Spring Boot, RESTful APIs, Git, GitHub

EXPERIENCE

Junior Associate, Zensar Technologies (Full Time)

Oct 25 – Nov 25

- Contributed to AI/ML Data Science workflows involving data creation, labeling, annotation, and model evaluation.
- Executed data creation and labeling/annotation activities to support AI/ML model development and evaluation.
- Performed model evaluation and data quality validation, maintaining over 95% quality and 90% productivity to assess model outputs against defined quality criteria.
- Analyzed data quality metrics and collaborated with cross-functional teams to support AI/ML workflows and project delivery.

DAIS Intern, Vodafone Intelligent Solutions

Apr 25 – Sep 25

- Designed and deployed enterprise analytical data models in SAP Datasphere, improving schema reusability by 20% across BI projects.
- Optimized BigQuery tables and SQL query structures, delivering 15–20% faster analytical query performance.
- Performed STM and ETL workflow testing, ensuring 100% structural compliance with target data models.
- **Tools:** Excel, SQL, BigQuery, SAP Datasphere.

Full Stack Developer Intern, Xdigis Technologies Pvt. Ltd.

Jan 25 – Apr 25

- Worked on a cloud-native, multi-tenant HRMS SaaS product for mid-size manufacturing companies in India, improving API performance by 25% and enhancing HR workflow efficiency for 100+ end users across multiple client organizations.
- Built and improved core HR modules — Employee Management, Payroll, and Attendance — improving automation and data accuracy by reducing 20% manual tasks.
- Developed and optimized backend services using Java and Spring Boot to improve API performance and data flow.
- **Tools:** React.js, JavaScript, Material-UI, Java, Spring Boot, RESTful APIs, PostgreSQL.

PROJECTS

Life Admin Guardian | Lyzr Agent Studio, Generative AI, Multi-Agent AI | [Link](#)

Jun 24 – Oct 24

- Developed a multi-agent AI system consisting of a Manager Agent and specialized agents for document analysis, deadline tracking, and action recommendations.
- Implemented document analysis to extract important information from invoices, warranties, bills, insurance, and purchase document.
- Configured multi-agent orchestration to identify important deadlines and expiry date and provide practical next-step recommendations.

Talent Acquisition Orchestrator | Lyzr Agent Studio, Generative AI, LLM | [Link](#)

Jan 24 – May 24

- Developed an AI-powered recruitment assistant to analyze job requirements, screen resumes, evaluate candidates, and provide structured recruitment insights.
- Implemented candidate comparison, ranking, and shortlisting based on job-relevant skills and experience requirements.
- Integrated document analysis and conversational AI capabilities to support resume screening and candidate outreach while keeping final hiring decision with human recruiters.

CERTIFICATES & ACHIEVEMENTS

- Microsoft: Azure AI Fundamentals (AI-900)
- AWS Academy Graduate: AWS Cloud Foundation
- UiPath: RPA Basics and Introduction to UiPath
- IBM: Exploratory Data Analysis for ML
- Board Infinity: Foundations of Java Programming
- Udemey: Mastering DSA Using C & C++

LEADERSHIP & ACTIVITIES

- International Student Workshop – Data Science Using Python | MIT ADT University Feb 2024
- Participant – IDEA EXPO, Persona Fest | MIT ADT University Feb 2023
