EDUCATION

MIT ADT University – School of Engineering

Pune, India

B.Tech in Computer Science Engineering – AI & Analytics

2021 - 2025

- CGPA: 7.32/10
- Relevant Courses: Machine Learning, Data Mining, Deep Learning, Cloud Computing, Data Analytics, Neural Networks

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript, SQL, R, HTML, CSS

RPA & Automation: UiPath, OCR, Excel Automation, DataTables, RESTful APIs

AI/ML Tools: TensorFlow, PyTorch, Scikit-learn, Pandas, NLP

Web & Cloud: React.js, Material-UI, Spring Boot, RESTful APIs, GitHub

Data Tools: Tableau, Power BI, Excel, Matplotlib, Seaborn

EXPERIENCE

DAIS Intern, Vodafone Intelligent Solutions

Apr 25 – Sep 25

- Designed and deployed enterprise analytical data models in SAP Datasphere, improving schema reusability by 20% across BI projects.
- Optimized BigQuery tables and SQL query structures, delivering 15–20% faster analytical query performance.
- Performed STM and ETL workflow testing, ensuring 100% structural compliance with target data models.
- **Tools:** Excel, SQL, BigQuery, SAP Datasphere.

Full Stack Developer Intern, Xdigics Technologies Pvt. Ltd.

Jan 25 – Apr 25

- Worked on a cloud-native, multi-tenant HRMS SaaS product for mid-size manufacturing companies in India, improving API performance by 25% and enhancing HR workflow efficiency for 100+ end users across multiple client organizations.
- Built and improved core HR modules — Employee Management, Payroll, and Attendance — improving automation and data accuracy by reducing 20% manual tasks.
- Developed and optimized backend services using Java and Spring Boot to improve API performance and data flow.
- **Tools:** React.js, JavaScript, Material-UI, Java, Spring Boot, RESTful APIs, PostgreSQL.

PROJECTS

Intelligent Invoice Processing Bot | UiPath, OCR, Regex, Excel | [Link](#)

Jun 24 – Oct 24

- Developed an intelligent invoice processing bot using UiPath and OCR to automatically extract structured data from PDF invoices.
- Implemented Regex-based data extraction and DataTables processing to capture invoice number, date, description, quantity, unit price, subtotal, GST, and total amount.
- Automated Excel report generation using UiPath Excel activities, reducing repetitive manual invoice data entry and improving processing consistency.

AI-Powered Resume Screening Bot | UiPath, OCR, Excel | [Link](#)

Jan 24 – May 24

- Developed an automated resume screening bot using UiPath and OCR to extract resume content and match candidate skills against predefined job requirements.
- Implemented automated skill match calculation and candidate classification, generating structured Excel screening reports.
- Automated resume sorting into Shortlisted and Rejected folders based on a 60% skill-match threshold.

CERTIFICATES & ACHIEVEMENTS

- | | |
|---|--|
| • UiPath: RPA Basics and Introduction to UiPath | • Microsoft: Introduction to Power Platform |
| • IBM: Python Professional Certificate | • IBM: Introduction to ML Specialization |
| • Microsoft: Azure AI Fundamentals (AI-900) | • Ucdavis: Data Visualization with Tableau Project |

LEADERSHIP & ACTIVITIES

International Student Workshop – Data Science Using Python | MIT ADT University

Feb 2024

- Completed an international hands-on workshop focused on Data Science Using Python.
- Worked on practical applications including data analysis and visualization techniques.

Participant – IDEA EXPO, Persona Fest | MIT ADT University

Feb 2023

- Showcased an innovative idea during a university techno-cultural expo.
- Engaged with students and faculty to present concept and gather feedback.

Volunteer – 8th World Parliament of Science, Religion & Philosophy | MIT ADT University

Apr 2022

- Contributed to efficient operations and delegate coordination at a major global conference.
- Assisted volunteer teams and faculty, ensuring seamless management for 1000+ attendees.
