EDUCATION

MITADT University – School of Engineering

Pune, India

B. Tech in Computer Science Engineering – AI & Analytics

2021 - 2025

- CGPA: 7.32/10
- Relevant Courses: Machine Learning, Data Mining, Deep Learning, Cloud Computing, Data Analytics, Neural Networks

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript, SQL

IT Fundamentals: Operating Systems (Windows), Networking Fundamentals, Application Troubleshooting

RPA & Automation: UiPath, OCR, Excel Automation, DataTables

AI/ML & Data Science: Data Creation, Data Labeling, Data Annotation, Model Evaluation, Data Quality Analysis

EXPERIENCE

Junior Associate, Zensar Technologies (Full Time)

Oct 25 – Nov 25

- Contributed to AI/ML Data Science workflows involving data creation, labeling, annotation, and model evaluation.
- Executed data creation and labeling/annotation activities to support AI/ML model development and evaluation.
- Performed model evaluation and data quality validation, maintaining over 95% quality and 90% productivity to assess model outputs against defined quality criteria.
- Analysed data quality metrics, identified quality issues, and collaborated with cross-functional teams to support project delivery.

DAIS Intern, Vodafone Intelligent Solutions

Apr 25 – Sep 25

- Designed and deployed enterprise analytical data models in SAP Datasphere, improving schema reusability by 20% across BI projects.
- Optimized BigQuery tables and SQL query structures, delivering 15–20% faster analytical query performance.
- Performed STM and ETL workflow testing, ensuring 100% structural compliance with target data models.
- **Tools:** Excel, SQL, BigQuery, SAP Datasphere.

Full Stack Developer Intern, Xdigics Technologies Pvt. Ltd.

Jan 25 – Apr 25

- Worked on a cloud-native, multi-tenant HRMS SaaS product for mid-size manufacturing companies in India, improving API performance by 25% and enhancing HR workflow efficiency for 100+ end users across multiple client organizations.
- Built and improved core HR modules — Employee Management, Payroll, and Attendance — improving automation and data accuracy by reducing 20% manual tasks.
- Developed, tested, and troubleshooted backend services using Java and Spring Boot, supporting API performance and data flow.
- **Tools:** React.js, JavaScript, Material-UI, Java, Spring Boot, RESTful APIs, PostgreSQL.

PROJECTS

Intelligent Invoice Processing Bot | UiPath, OCR, Regex, Excel | [Link](#)

Jun 24 – Oct 24

- Developed an intelligent invoice processing bot using UiPath and OCR to automatically extract structured data from PDF invoices.
- Implemented Regex-based data extraction and DataTables processing to capture invoice number, date, description, quantity, unit price, subtotal, GST, and total amount.
- Automated Excel report generation using UiPath Excel activities, reducing repetitive manual invoice data entry and improving processing consistency.

AI-Powered Resume Screening Bot | UiPath, OCR, Excel | [Link](#)

Jan 24 – May 24

- Developed an automated resume screening bot using UiPath and OCR to extract resume content and match candidate skills against predefined job requirements
- Implemented automated skill match calculation and candidate classification, generating structured Excel screening reports.
- Automated resume sorting into Shortlisted and Rejected folders based on a 60% skill-match threshold.

CERTIFICATES & ACHIEVEMENTS

- Microsoft: Azure AI Fundamentals (AI-900)
- AWS Academy Graduate: AWS Cloud Foundation
- UiPath: RPA Basics and Introduction to UiPath
- IBM: Exploratory Data Analysis for ML
- Board Infinity: Foundations of Java Programming
- Udemy: Mastering DSA Using C & C++

LEADERSHIP & ACTIVITIES

- International Student Workshop – Data Science Using Python | MIT ADT University Feb 2024
- Participant – IDEA EXPO, Persona Fest | MIT ADT University Feb 2023
